Review Week

Review Week is an exciting time in our kindergarten classrooms! It provides opportunities for our little learners to revisit important concepts, reinforce their understanding, and build confidence in their skills. Through engaging activities, we ensure that children grasp foundational lessons while having fun.

During this special week, we focus on reviewing letters, numbers, shapes, colours, and early Literacy and Numeracy skills. Teachers use interactive games and hands-on activities, to make learning enjoyable. Our young learners also participate in group activities and movement-based exercises that reinforce their knowledge in a playful way.

Review Week not only helps children strengthen their understanding but also allows teachers to assess the student's progress and scaffold the learning process, if needed. This exercise boosts confidence and helps celebrate achievements before moving on to new learning adventures.
